## *Easy Mover Carriage*

### Easy Mover Carriage

The Easy Mover Carriage (EMC) provides you with a safe and secure option for grave-setup in lawn cemeteries. Your lowering device is towed into place on the secure tracks, the EMC is levelled via the use of four height-adjustable stabilisers located towards each corner, the drape is folded down and the grave is set.

### Basic EMC Frame

### Advantages of the EMC

- Eliminates lifting of the lowering device
- Eliminates awkward placing of the lowering device
- Eliminates the use of wooden chocks to level the lowering device
- Provides a safe framework around the grave
- Significant reduction of time for grave setup
- Tow-arm is removable (to provide a sleek, clean appearance around the grave)
- Greatly reduces exposure to falls while working around the grave

**Stabilisers**

**Tow Bar**

## Step-by-Step Instructions

1. Tow the EMC to the grave
2. Lay tracks down each side of the grave
3. Tow the EMC into position over the grave
4. Remove the tow-arm from the EMC
5. Fold down the drapes to cover the EMC
6. Adjust the height of the EMC at each corner until you have a level surface

**Drapery & Lowering Device**

**Custom Stabilisation**

**Flower Tray**

**EMC Ramps**

### Specifications of the EMC

SPECIFICATION	MEASUREMENT
Height of framework at ground level:	480mm
Maximum height of framework at full extension:	650mm
Load-rating of Stabilisers:	1800kg
Load-rating of Lowering Device:	Imperial Device: 363kg Master Device: 454kg
Width of EMC framework:	1330mm
Length of EMC framework:	2770mm

### Drill Setup

**One device does everything!**

One drill can be used to set up the entire Easy Mover Carriage.
