Fixed Bar Handles

Our products have been manufactured at our premises in Caloundra QLD under strict guide lines and procedures, using only 100% virgin ABS plastic and specialist moulding processes. Following strict guidelines and procedures allows us to stand by our claims.

121 Silver small fixed bar handle with small rose

Our 121 coffin handle is the centre of attention in our latest video and what a star it is! All of Hyqual Australia's manufactured coffin handles are continually being independently stress-tested, but this is the first time we have filmed any testing. The team decided it would be a good idea to show our customers just how strong our Australian manufactured products are. All the footage you see here was first take ONLY. We did no trials or checking to see how far we could go before we started filming. I did pause filming while "The Boys" moved things around and set up the forklift. If you bring the video up to full screen you can see the look of concern on Aaron's face as he begins the lift of the coffin with ONLY 4 x 121 coffin handles and 500kg.

The results speak for themselves, we were all extremely pleased.

Technical specifications:

- ABS virgin plastic 121 coffin handles
- 4 x 25mm grabber screws and 2 locating pins per handle
- MDF coffin
- 25kg bags of ABS virgin granular plastic

Unassembled fittings *Combustible*

Hyqual Australia manufactures and supplies combustible unassembled swing bar handle fittings, to suit both coffins and caskets.

These unassembled fittings consist of 12 backplates with arms attached to take timber bar handles and 12 knobs for sealing the ends of the timber bar. There are 6 handles per set and this quantity of 12 will make 1 set.
